The Park railway yesterday morning presented the appearance of having been struck by a cyclone. In four different places sections of the read about thirty feet in length—thee, rails and all—had been torn up, and the rails bent in irregular curves toward the sudowalk. The localities of the depredations are between N and O, and T and Asylum and U streets on kitth, and between V and W on Seventh. Men and houses both were evidently ergaged in the undertailing, and there is some testumony to that effect, though none of the men could be identified, being no sked and otherwise disguised. They were evidently not received in than of Unimpress, as men of experience say that SANDALISM FTTRAORIUS ARS guised. They were evidently not versed in that kind of business, as men of experience say that in the time necessarily, taken to effect what was accomplished.
